## *Flowering Dogwood Mobile*

Limited Edition of Fifty  
Signed and Numbered  
Cast Resin and Silk Crepe  
54" Diameter, 24" Depth

"By reconstructing a small part of the natural environment, I am prolonging a distinct, fleeting moment.  
A mobile's perpetual motion conveys both my desire to extend time and the sensation of its endless, inescapable flow."

ABOVE: Branches for casting were pruned from this tree. Sincere thanks to M. French.

"FLOWERING DOGWOOD MOBILE is the culmination of two years studying the tree's characteristics and the complex casting process it would take to realize my vision. The branches are formed from a strong but flexible resin, and the silk elements highlight qualities I observed in the leaves and petal-like bracts. The mobile's perpetual motion conveys both my desire to extend time and the sensation of its endless, inescapable flow."
